MISCELLANEOUS.

THE

ROBERTS TORPEDO COMPANY.

TO ALL WHOM IT MAY CONCERN

The following is a brief summary of the RIGHTS AND CLAIMS OF THE ROBERTS TORPEDO COMPANY, which rights they intend to enforce against all parties violating the same

The rights of said Company consist of three Patents issued and granted by the United States to E. A. L. Roberts for explosion of Torpedoes in oil bearing rock, together with the assignment of six other Patents for the exclusive right to use Nitro-Glycerine and other powerful explosive materials for the same and purposes in the other Patents mentioned.

In the various legal conflicts relating to the Patents above mentioned, volumes of testimony have been taken and some of the best legal talent in the country has been employed in opposition to the Company, but after a contest of over two years, it was decided by the Supreme Court of the United States that Col Roberts was the first to discover the practicability and invent the means of increasing the capacity of oil wells in the oil bearing rock by exploding Torpedoes therein.

That since the organization of said Company, in order to protect their rights, it has been deemed necessary to commence suits against several persons, among whom are Alexander Hamer, Albert E. Nickerson, and Kent & Mellner, (operators,) and Senute & Parke (manufacturers.) That during the trial of said several cases, the pretended claim of William Reed and others in relation to being the discoverers and first to apply Torpedoes in oil wells, was fully investigated, and notwithstanding the said pretended claim of Reed and others, judgment was obtained in the United States Court against the several parties defendants in said suits, and permanent injunctions issued against all of them. And in order further to protect the interests of said Company, suits have been commenced in the United States Court and injunctions obtained against Frederick T Munson, of Reno, Venango county, Pa., and George W VanVliet, of Pithole, in said county And in addition to the above suits, in which injunctions have already been obtained, in order to protect the just rights and interests of said Company, a suit has been commenced against Sherman Camp, of Rouseville and proceedings instituted against the Reed Torpedo Company, of Reno, Pa., William Reed, William Phillips Ralph Pettibone and J B. Stubbs, officers of said Reed Torpedo Company, their agents and employees and all other persons known to have purchased Torpedoes of them, or any of them.

In view of the benefits resulting from the use of Torpedoes and the liberal patronage of the community in order that all parties may avail themselves of them, this Company is prepared to furnish Torpedoes at a price much less than heretofore.

While the Company do not court litigation they deem it proper to place these facts before the public in order that innocent parties may not be led into difficulty by false statements of individuals, or circulars of Companies, who are pirating their rights, as suits will be immediately brought against all persons, who, either use or purchase Torpedoes of any except them or their authorized agents, as their Patents cover the exclusive right to explode Torpedoes in oil wells

MISCELLANEOUS.

640 MILES

OF THE

UNION PACIFIC

RAILROAD

Are now finished and in operation Sixty miles of track have been laid this spring, and the work along the whole line between the Atlantic and Pacific States is being pushed forward more rapidly than ever before More than twenty thousand men are employed, and it is not impossible that the entire track, from Omaha to Sacramento will be finished by 1869 instead of 1870 The means provided are ample, and all that energy, men and money can do to secure the completion of this

GREAT NATIONAL WORK

at the earliest possible day, will be done

The UNION PACIFIC RAILROAD COMPANY receive

I.—A GOVERNMENT GRANT of the right of way and all necessary timber and other materials found along the line of its operations

II.—A GOVERNMENT GRANT of 12,800 acres of land to the mile, taken in alternate sections on each side of its road This is an absolute donation and will be a source of large revenue in the future.

III.—A GOVERNMENT GRANT of United States Thirty-year Bonds, amounting to from $16,000 to $48,000 per mile according to the difficulties to be surmounted on the various sections to be built The Government takes a second mortgage as security, and it is expected that not only the interest, but the principal amount may be paid in services rendered by the Company in transporting troops, mails & Th interest is now much more than paid in this way besides securing a great saving, in time and money to the Government

IV.—A GOVERNMENT GRANT of the right to issue its own First Mortgage Bonds and in building the road to the same amount as the United States Bonds issued for the same purpose but no more THE GOVERNMENT PERMITS the Trustees of the First Mortgage Bondholders to deliver the Bonds to the Company only as the work progresses, and after it has been examined by United States Commissioners and reported to be a first class Road, well equipped with depots stations, turnouts, rolling stock locomotives cars, &c

V.—A CAPITAL STOCK SUBSCRIPTION of the stock 100m of which *over Eight Millions* have been paid upon the work already done and will be received in the works at the Company's price

VI.—NET CASH EARNINGS of the West Division for the last six months amount to MORE THAN THE INTEREST on the First Mortgage Bonds These earnings are no indication of the earnings of the road when completed, but they clearly prove that

First Mortgage Bonds

upon such a property, yielding nearly three times their amount

ARE SECURE BEYOND ANY CONTINGENCY

The Union Pacific Railroad with thirty years before it, offers a field for investment, which for security and profit is unequaled by any in the country. The Company's office in the City of New York, where the Company's office in the City of New York, where the rate of six per cent gold interest coupon bonds, payable in gold at maturity The price is $100, and at the rate of gold the purchaser receives more than cost.

The Company believe that these bonds at the present rate are the cheapest security in the market and reserve the right to advance the price at any time

Titusville, Wednesday, July 1, 1868.

READING MATTER ON EVERY PAGE

Varieties.

The Common Council and School Board meet this evening

—The net receipts of the Good Templar Festival last week amounted to $72.

—Prof Sands, the celebrated Prestidigitateur, exhibits in Corinthian Hall to night

—Petroleum Centre is to have a celebration. The *Record* says Bob Hamilton is running the machine, and the celebration will be a success

—Three men were killed on the A & G W Railway, near Panama station, on Saturday Two were emigrant passengers and the other a farmer We are without further particulars

—The extensive nail works of the Pottstown (Pa) Iron Company were totally destroyed by fire on Saturday Loss $100,000 to $150,000 mostly insured The rolling mill and other buildings were uninjured

We received a dispatch from Rouseville yesterday stating that a big crowd would come up to Titusville on the 4th if an extra train could be run from Oil City and return at 10 o clock p m We believe that Supt Switzer has consented to run an extra train from Irvine for this accommodation

Manufacturers and dealers whose annual sales exceed five thousand dollars are required to make return of the same to the U S Assistant Assessors before the 10th of July, for the quarter commencing April 1st, to July 1st, 1868 as provided in fourth section, act of Congress approved March 31, 1868

The Baptist Festival at City Hall last evening was a very brilliant success The decorations were in excellent taste, and the tables were profusely laden with the most tempting refreshments There was a numerous throng of visitors and the pecuniary results of the entertainment probably exceeded every expectation

We give elsewhere an account of a fatal boiler explosion on the Tallman Farm yesterday morning Another correspondent writes that the party with whom it rested refused his friends permission to take the body to the house, where it could be properly prepared for burial We withhold the name for the story seems incredible

Fourth of July Celebration

The following Programme has been handed us for publication

ORDER OF PROCESSION

The following is announced as the Order of Procession

The Trades representations will form in column on Franklin street, right resting on Spring street

The Fire Companies will form on West Spring street, right resting on Franklin street, under command of Chief Engineer Goodwin

The Harugari Society will form on East Spring street, right resting on Franklin

The Soldiers' Orphans' School will form on East Pine street, right resting on Franklin

The Simeon Lodge will form on West Pine street, right resting on Franklin street

The Associations under command of Rev Nap Mignault will form on Spring street, right resting on Washington

The Mayor and Common Council and ex members of the City Government will take the right of the column forming on Franklin, right resting on Pine

Delegations from abroad will form on West Main street, right resting on Franklin

Citizens will form on East Main street, right resting on Franklin

The line of march will be through Franklin street to Walnut, through Walnut to Drake, through Drake to Spring, through Spring to Main, through Main to Perry, through Perry to Elm, through Elm to the Grove

Chief Marshal—Col O Keese

Assistant Marshals—Capts J J Carter, B N Hurd, H E Wrighty, L F Merry

PATRIOTIC SINGING—Perhaps the most interesting feature in the programme of our approaching celebration, will be the singing exercises of the children, under the direction of Mr James P. Burtis Nearly one hundred little misses are expected to participate in these vocal exercises at the Grove and those who have attended the rehearsals, which take place in the basement of the M. E Church every afternoon, bespeak a very gratifying entertainment. The pieces selected for the occasion are the "Star Spangled Banner," "Columbia the Gem of the Ocean" "Pleasure in Singing," and "America" The words of each have been printed and distributed among the class There need be no apprehension of accident to the children, for they will ride in the procession, and will be constantly under the most careful supervision.

IS IT FAIR?—There is considerable complaint amongfour retail dealers at the erection of booths, stalls, etc, for temporary customs by transient venders of fruits, fireworks, beers, etc, on the Fourth. They allege that they as regular dealers have their license, Government, State, and City, and if any competition is allowed, it should be put on the same terms. The City Council will probably take such action in the premises as shall be just and equal to all concerned.

The New Tax Bill.

The House on Friday passed the bill of the Committee of Ways and Means, providing new rates of duty on diluted spirits and manufactured tobacco in all forms, and revising the methods of collection The new bill imposes a tax of fifty cents for every proof gallon of spirits, a great reduction, but which will have the effect, it is asserted, of largely increasing the revenue of the Government. By the new bill spirits in the bonded warehouses must be withdrawn within six months, and pay in addition to the direct tax a special tax or four dollars a barrel (of forty gallons. The bonded warehouse system for spirits is abolished, and the collection of the tax at the distillery will hereafter be required The bill also provides a drawback not exceeding fifty cents a gallon on spirits and rum for exportation. Chewing tobacco and snuff is taxed at thirty two cents, and smoking tobacco sixteen cents a pound. This is as was originally reported by the Ways and Means Committee. Cigars, cheroots and cigarettes are to be taxed at the rate of five dollars per thousand.

The banks and bankers sections provides that a tax of one-twelfth of one per centum per month shall be paid on the average amount of the deposits of money other than public money of the United States, subject to payment by checks or draft, or represented by certificates of deposits or otherwise, whether payable on demand or at some future day, "with any person, bank, association, company or corporation engaged in the business of banking," and a tax of one fourth of one per centum each month on the average amount of all deposits of public money in their possession to the credit of the treasurer or any disbursing officer of the United States, and a tax of one twenty fourth of one per centum each month upon the capital of any "bank, association, company or corporation engaged in the business of banking," and on the capital employed by any person in the business of banking beyond the average amount invested in United States bonds, and a tax of one sixth of one per centum each month upon the average amount of circulation issued by any "bank, association, corporation, company or person," including as circulation all certificates of deposit and all notes and other obligations circulated or intended to circulate, or to be used as money," but not including that in the vault of the bank, or redeemed and on deposit for said banks

The bill which has just gone to the Senate is unquestionably an improvement upon the laws now in force There will be less temptation to steal, the profit of distilling molasses in fraud will be destroyed entirely, and that of distilling grain reduced so greatly that it will hardly pay for the risks incurred Some little additional security for the detection and punishment of offences is obtained by the conditions affixed to license, and by the administrative sections It seems not unreasonable to expect that under it the revenue from spirits will be increased to twenty or twenty five millions of dollars, and that from tobacco, notwithstanding the lower rates, fully maintained

The senate is likely to concur in the action of the House as to the main features of the bill though the system of drawbacks will likely meet opposition and it is asserted by bankers that representations of the New York *Evening Post* one of the best authorities in matters of finance and revenue, are well grounded In *Post* says

The drawback even if administered with rigid honesty would call for less adventure in the trade than at first appears But it will not be so administered It is so manifestly an invitation to extensive fraud is that it will be a matter of wonder if the whiskey ring should not propose the abolition of the tax and give all their strength to the support of the system of drawbacks

Under the old plan of permitting the export of spirits in bond, extensive frauds have undoubtedly been practised But this and other ports Vessels have been filled with water the invoice calling it whisky and by the connivance of several officers in and at the port of destination, the bonds have been cancelled, while spirits have been sold at the home market But bonded warehouses have been secretly emptied of spirits which have been withdrawn as taxpaid goods and then the warehousing bonds cancelled upon fraudulent export papers Bonded warehouses, so easily prevent frauds upon the revenue by the facilities to draw thirty days at most in the treasury for cash barrel to which have certify it will be filled with the thieves but the well apprehended looks of the customs officers only as much whisky as the country needs

Political Paragraphs.

The "Conservative" soldiers invited General Seldon Connor, of Mendall's Mills, to preside over their deliberations at Augusta, Maine, on Tuesday of last week, but he replied that he was in favor of Grant and Colfax

The tickets of admission to the National Democratic Convention have been engraved in elaborate style by the American Bank Note Company The precaution has been taken to guard against counterfeits

Gen Sickles declines running for Governor of New York

The judgment recently procured by default by Ross, Steele & Co, against the Kansas Pacific Railroad for six million six hundred thousand dollars, has been stayed by the Supreme Court of New York Of three suits previously brought for the same claim, one was decided by Judge Keller, of the United States Supreme Court in Iowa, in favor of the Company, and the others were abandoned The value of the services of Ross, Steele & Co has been appraised by engineers in Kansas at less than twenty five thousand dollars The whole proceedings will doubtless be set aside at the session of the Court in July

The Republicans of Somerset county have nominated the following ticket Assembly, John Weller, District Attorney, E J. Kooser, Commissioner, John Moug, County Surveyor, Wm M Schrock

The Democracy of Northumberland county have made the following nominations Congress George W Zerger, Assembly, Wm. H Kase, District Attorney, Jeremiah Snyder, Commissioner, Wm E. Buchner, Surveyor, J K Francis

The Bedford county Democracy have nominated the following ticket Congress, B F Meyers Additional Law Judge, J. McD Sharpe, Assembly, Capt T H Lyons, County Surveyor, Samuel Ketterman, Commissioner, David P Beegle Poor Director, Henry Egolf, Auditor, Val Stuckman, Coroner, Dr P H Hensyl.

Two years ago, when some of the Hotspurs of the Fenian organization were making demonstrations along the lines, our Government seized at St Albans about thirteen hundred old muskets Two or three weeks ago some of the Fenian officers made application for the release of those arms and for permission to bring them back to New York The Government consented to their being removed on bonds being given that they should not be used unlawfully When they were ready to be shipped they were found upon by the express company on charges accruing two years ago in their transit to the border All duties have been paid and the arms are now safely in New York

The *Freeman's Journal*, which strongly advocates the nomination of Pendleton by the Democrats, says

One word to the bondholder You are now offered a compromise Mr Pendleton proposes to pay you in greenbacks worth more than the greenbacks you gave for the bonds you hold Accept this compromise, will you? Well then, on the moment, another movement will show itself It will be the movement of repudiation It will be a movement that will treat the bondholders as having been robbers of the people and will be injury and insult to those who have helped keep up the interest at the people's expense

On the other hand the Albany *Argus* hopes the Democracy will not narrow the struggle to a mere financial issue It points against the abuse of paper money and refers to the continental over issue Hints for accepting the situation and going for greenbacks We quote

But this appreciation of the character of the contest that induced so many Democrats to turn toward Chief Justice Chase as candidate has a contest between the sword, between civil and martial law, between institutions and force, it would be well to preserve the element of civil authority in the person of the Chief Justice as the antagonistic element of lawlessness has already found embodiment in the person of the General in Chief Grant, Mr Chase would vindicate and restore the Executive office In the struggle to elect him the legislative might be arrayed in the destructives who now control it No other hope than those prompted the suggestion of his name From the moment he pronounced Chase the Democrat were willing to regard him as one Statesman who in the future may have looks backward to find his footprints of sentiment or action in men who are to come forward with him and where as the contest stands we believe it is the only path in which we can tread with safety We found it the only path in which we can tread with safety We found it the only path in which we can tread with safety We found it

Titusville Morning Herald.

[CONCLUDED FROM FIRST PAGE.]

pleted. Twenty-six persons killed, and forty wounded, that was the final result of Billon's last day's work. M. De la Bruyere survived for more than forty years the day on which he had so heavily wrought. He underwent the most torturing operations, but came out of all with the loss of an eye and the splintering of some bones. His wife died, overcome with fright and by self-reproaches for having persuaded a friend to stop in Senlis on the day which was fatal to him. But the list of victims was not the only result of Billon's crime. On the morrow of the 13th Senlis looked like a bombarded town. Billon's house was blown all to pieces, sixty-six others had been seriously damaged, and one had fallen in altogether, crushing a lady who was in it. The cathedral, at a distance of more than two hundred yards, was so shaken by the explosion that an immense stone fell from the vault harmlessly, as it happened, among the persons gathered together to witness the ceremony. Scarce a pane of glass was left whole in town. A heavy clock-weight, and bullets of twelve, twenty-four and thirty-six pounds weight were found in the walls of neighboring houses. Great misery was caused by this destruction of property, even in families where no loss of life was deplored. Fifty families were reduced to indigence, and the State had to come to the aid of private subscribers, who sought to relieve this misery. Billon's widow, perfectly innocent of all knowledge of her husband's machinations, was dragged to prison, from which she was released a fortnight later. As soon as she was free she sought permission to bury the remains of her husband, which had been dragged through the fields to the foot of the gallows, and there left to wolves and birds of prey. The unsatisfied vengeance of the Senlis had only left as a mark the ruined house of the watchmaker, it was razed to the ground, and, in accordance with an old custom, salt was thrown on its site. The authorities of the city ordered that the space should forever remain vacant, so that the very memory of the crime might die out. But to this day the widened space between two streets is called by the name of the mad or maddened watchmaker.

All Sorts.

There are rumors afloat in Chicago that the steamer Kalamazoo, plying between St. Joseph and Kalamazoo, Michigan, sunk on the 19th with all on board, numbering six persons.

Luther McQuestion, thirty-five years old, a resident of Lowell, jumped off a railroad train at Ballardville, Mass., on Monday, struck a stake and was impaled upon it. He died in a short time.

An unsuccessful attempt was made on Saturday in Hartford county, Conn., to throw a train from the track, on which was six tons of coin, en route for the Boston Sub-Treasury, in charge of Adams' Express.

The Brooklyn Athletics beat the St. Louis Unions at base ball on Saturday by 68 to 9.

John B. Brownlow of the Knoxville *Whig* attempted to put some leaded matter into the form of Mr. Kirby, of the *Press*, with his shooting stick, but failed. Nobody hurt.

The Kentucky lottery dealers who were enjoined, and the injunction subsequently dissolved, have been again enjoined from drawing the lottery.

Jeff Davis, while coming down stairs with one of his children in his arms, in the hotel at Lenoxville, Canada, fell and somewhat injured his back.

Henry Homberg was thrown from his wagon in Logansport, Indiana, the other day, and killed. His horse was frightened by a base ball, and ran away.

J. H. Kelly fired at Ben Garret, in Memphis, to settle an old quarrel. Garrett returned the fire, and Kelly was seriously injured. Garret was arrested and acquitted.

WHEELER & WILSON'S

SEWING MACHINES,

AWARDED THE Highest Premium AT THE WORLD'S FAIR, London 1862 AT THE EXPOSITION UNIVERSELLE Paris, 1867

EIGHTY-TWO MACHINES OF AMERICAN AND EUROPEAN MANUFACTURE COMPETING.

The awards were made in the following order

1st—Wheeler & Wilson.....Gold Medal.
8th—HOWE MACHINE CO.....Silver Medal
8th—WEED S. M. CO.....Silver Medal
8th—FLORENCE S. M. CO.....Silver Medal.
12th—GALLOWAY (Singer Machine) Silver Medal
22d—A. B. HOWE.....Bronze Medal
36th—EMPIRE S. M. CO..... Honorable Mention
40th—ELIAS HOWE, JR..... } Co-operators
41st—J. A. & H. A. HOUSE..... } (Alike)

All kinds of Double and Single Thread Chain Stitch Machines were exhibited, but not noticed in the awards.

The qualities which recommend the Wheeler & Wilson Machine, are

1. It uses NO SHUTTLE, and makes the LOCK-STITCH.
2. Beauty and excellence of stitch, alike upon both sides of the fabric sewed.
3. Strength, firmness, and durability of seam, that will not rip nor ravel.
4. Economy of thread.
5. Its attachments and wide range of application to purposes and materials.
6. Compactness and simplicity of model and finish.
7. Simplicity and thoroughness of construction.
8. Speed, ease of operation and management, and quietness of movement.
9. It has been the popular Family Sewing Machine for nine years, and *knows it is no experiment to buy it*.

ALL MACHINES WARRANTED THREE YEARS.

A Library of Universal Information.

THE NEW

AMERICAN CYCLOPÆDIA:

A Popular Dictionary of General Knowledge.

EDITED BY

GEORGE RIPLEY AND CHARLES A. DANA,

AIDED BY A NUMEROUS CORPS OF WRITERS, IN ALL BRANCHES OF SCIENCE ART AND LITERATURE.

In 16 large volumes, 8vo

750 double-column pages in each volume.

The leading claims to public consideration which the New American Cyclopædia possesses may be thus briefly stated:

"1. It surpasses all other works in the fullness and ability of the articles relating to the United States.

"2. No other work contains so many reliable biographies of the leading men of this and other nations. In this respect it is far superior even to the more bulky Encyclopædia Britannica.

"3. The best minds in this country have been employed in enriching its pages with the latest data, and the most recent discoveries in every branch of manufactures, mechanics, and general science.

"4. It is a library in itself, where every topic is treated, and where information can be gleaned which will enable a student, if he has no other books at hand, to consult other authorities, thus affording him an invaluable key to knowledge.

"5. It is clearly printed, with readable type, on good paper, and contains a most copious index.

"In fine, it is a work which, in everything, approaching correct descriptions of our and foreign lands, or of subjects reliable statistics, showing the wonderful growth of all sciences."

Every one that reads, every one that mingles in society, is constantly meeting with allusions to subjects on which he needs and desires further information. In conversation, in trade, in profession, in the farm, in the office, practical questions are continually arising which he can not, without loss or pain, satisfactorily answer. If the books for reference are at hand, they are consulted, and not only is the curiosity gratified, and stock of knowledge increased, but pertinent information is obtained, and ill-mannered suggestions that will directly contribute to the business success of the party concerned.

A Cyclopædia is pre-eminently the work for our country and generation. This is the age of steam. No one has time to grope among a hundred different works for every little fact required, without the certainty of finding it at last. With a Cyclopædia, a comprehensive conversation upon any subject, and having its leading points clearly arranged, not a moment is lost. The matter in questions found at once, digested, condensed, and ready for use, all that is here contained is necessary, and serves as a comparison of the best authorities. Moreover, while only men of fortune can command a library complete in all the departments of knowledge, a Cyclopædia worth its weight in gold for purposes of reference, at a cost of a few dollars, is within the reach of all—the clerk, the merchant, the professional man, the farmer, the mechanic. In a country like ours, where the humblest may be called to responsible positions requiring intelligence and general information, the value of such a work cannot be over estimated.

THE

ANNUAL CYCLOPÆDIA.

Commenced in 1861.

Six Volumes now out.

The same price per volume, and uniform with the New American Cyclopædia.

PUBLISHED ONE VOLUME ANNUALLY

REGISTERING ALL THE IMPORTANT EVENTS OF EACH YEAR—VALUABLE AS A WORK OF REFERENCE.

"In numerous instances of immense value to the public officials, in every county, public and private, as a ready book of reference."—*The Capital, Albany, N. Y.*

"We can confidently and conscientiously recommend the Annual Cyclopædia to all who would have access to a ready and reliable history of the month, or year, in connection with and as a side work to the larger work."—*Evening Journal.*

"It is indeed a most excellent work. It is full enough and to the point, and just such a work as every school, a faithful chronicle of important events, commonly too hard to be remembered, and of too much account to be lost."—*Cleveland Daily Plain Dealer.*

Petroleum Torpedo

COMPANY.

WM. S. FORD.....President, New York
GILBERT DEAN.....Counsel, "
W. R. ROBERTS.....Secretary, "
G. TITUS.....Treasurer.

Office, 47 Bond-St., New York

COL. E. A. ROBERTS,

General Superintendent, Titusville, Pennsylvania

OFFICE AT THE RED PLANING MILL

Heretofore we have in our circulars, alluded to a series of experiments being made with Nitro Glycerine and other explosives. We now announce that we have succeeded, even beyond our most sanguine expectations, as regards the safe and easy handling, also the superiority of the Torpedo, and the large increase of power in comparison to a skillful combination of the use of Torpedo and Nitro Glycerine, and are now prepared to offer to oil well owners, any of the above named explosives either with our torpedo or in the torpedo with them, a record of which we will now forward on application.

18 lb. Nitro Glycerine, equal to 84 lbs. powder	$150
12 lbs. " " 56 lbs. powder	100
Combustible equal to 200 lbs. powder	150
Improved Torpedo, equal to 300 lbs. powder	200
Double combination, equal to 400 to 1000 lbs. powder	$200 to 500

CAUTION.—The public is cautioned against employing any but Roberts' duly authorized agents of this Company, since their patent, according to the recent decision of the Commissioner of Patents for the United States, covers the use of the Torpedo and all other explosive materials for oil wells, and the use of such materials by other parties is a direct infringement of their rights, and we will hold liable for working interests to a strict accountability for such infringements.

THE

American Cooking Stove

IN COURT.

At an adjourned term of the Circuit Court of the United States, for the Northern District of New York, in the second month held at the City Hall, in the city of Albany, the 30th day of January, in the year of our Lord 1868.

PRESENT

The Honorable NATHAN K. HALL, Judge

JACOB H. SHEAR & JOSEPH PACKARD, vs. GEORGE B. BELL & JOHN M. ROCKWELL } *In Equity.*

It is further ordered, adjudged and decreed, that a perpetual injunction issue from this court against the defendants, restraining them from further infringement of said Patent No. 51,400, dated Dec. 5th, 1865, for improvements in cooking stoves, pursuant to and in accordance with the prayer of the Bill of Complaint.

(Signed) A. A. BOTCE, Cl'k.

The above suit was instituted for infringement of the Patent covering the manner of filling the ash pan in the hearth of the American Cooking Stove, and for the combination of the baited ash pan. We have repeatedly cautioned the public against selling or using stoves with these improvements not manufactured by us. All persons now selling or using stoves with these improvements in violation of the above injunction, without license from us, will be liable to fine and imprisonment.
